Memo to Marcus

Recommendation: software and subscription savings

To: Marcus (COO) **From:** Operations **Date:** Tue 20 Oct 2026, by 12:00 PM ET

Bottom line: $18,601 a year in recurring savings (target $12,000), plus $2,707 in one-off refunds from 3 billing errors. Excluding the billing-error fixes, operational cuts alone are $14,173/yr.

Nothing on the peak-season freeze list changes, no annual plan is cut before its renewal date, and I've kept Microsoft 365 as is because the 20 temps start 1 Nov.

#	Top 5 actions for approval	Owner	Do by	Annual saving	One-off
1	Dispute 3 billing errors (Notion, LinkedIn, Hootsuite) and stop the wrong monthly charges. I draft, Tom sends.	Tom	23 Oct	$4,428	$2,707
2	Turn off Dropbox auto-renew (files moved to SharePoint in June). First check the 5 active users have nothing left to move.	Marcus	20 Nov	$3,600	-
3	Turn off Zoom (by 22 Oct) and Monday.com (by 5 Nov) auto-renew. Move 2 users to Teams and 1 user to Asana.	Marketing / Sales leads	22 Oct / 5 Nov	$3,359	-
4	Retire Google Workspace (12 seats, 3 active) once the 3 users' mail and files are in Microsoft 365.	Marketing lead + Marcus	13 Nov	$2,016	-
5	Remove unused seats now: Loom 11, Canva 4, Grammarly 4, Slack 3, Asana 2. Cut Adobe from 4 to 2 seats at its 12 Dec renewal.	Tool owners	23 Oct / 2 Dec	$5,199	-

Billing errors to dispute (refund requests)

- Notion Plus: cancelled 30 Jun (vendor email), still charged $120/mo Jul–Sep. Refund $360.
- LinkedIn Sales Navigator: charged $3,200 in Aug on a $1,600 annual plan. Refund $1,600.
- Hootsuite: $2,388 prepaid in Jan yet also charged $249/mo Jul–Sep. Refund $747; Tom to check Jan–Jun too.

What I'm not cutting, and why

- Shopify, Klaviyo, Gorgias, ShipStation, HubSpot: on the peak-season freeze to 15 Jan. Klaviyo's Sep rise ($720 to $945) fits its list-size billing; I'll verify the tier rather than dispute it.
- Microsoft 365: company standard. Temps use a shared warehouse account; I'll review the 6 inactive seats before the 1 Jan renewal.
- Slack: 27 of 30 seats in use. Moving chat to Teams mid-peak is too risky; I suggest reviewing after 15 Jan (up to $2,835/yr more).
- Fully used or account-based tools (DocuSign, QuickBooks, Gusto, Calendly, Zapier, Expensify, LinkedIn): no saving found. Janelle to confirm Gusto's billed headcount is 85.

Decision needed: approve actions 1–5 by 21 Oct. Zoom's auto-renew notice is the first deadline (22 Oct). Detail: Analysis, Savings summary and Renewal calendar tabs.

Not cutting, and why

- Shopify, Klaviyo, Gorgias, ShipStation, HubSpot – peak-season freeze to 15 Jan 2027 (Klaviyo Sep rise is a list-size tier change to verify, not an error).

- Microsoft 365 – company standard; temps use a shared warehouse account from 1 Nov; 6 inactive seats reviewed at 1 Jan renewal.
- Slack (beyond 3 unused seats) – 27 active users; moving chat to Teams mid-peak is a risk. Revisit after 15 Jan (up to $2,835/yr more, not counted).
- LinkedIn Sales Navigator plan – 2 of 2 seats used; only the $1,600 overcharge is disputed.
- Hootsuite plan – prepaid to 15 Jan 2027; only the extra monthly charges are disputed. Decide on renewal by early Jan.
- DocuSign, QuickBooks, Gusto, Calendly, Zapier, Expensify – fully used or account-based; no saving found.

Not disputed: Klaviyo Sep increase ($720 → $945) – billed by list size; Marketing to confirm list size and tier first. Dispute only if the tier price doesn't match.

Data issues

Data profile of the Q3 export (logged before analysis)

Profile: 25 tools, 11 columns, 3 months (Jul–Sep 2026). Q3 total spend in Analysis!H30.

#	Issue	Rows affected (Raw)	Treatment in analysis
1	Seats_Paid and Active_Users_30d blank for account-, usage- or employee-billed tools	Shopify, Klaviyo, QuickBooks, Gusto, Zapier, Hootsuite	Cost per user and unused seats shown as n/a; no seat cuts proposed
2	Renewal_Date mixes ISO dates and the text 'Monthly'	Column J, all rows	Converted dates with DATE(LEFT/MID/RIGHT); 'Monthly' kept as text
3	Billing labels inconsistent: 'Annual', 'Annual prepaid', 'Annual billed monthly', 'Annual auto-renew billed monthly'	Zoom, Monday, Adobe, Dropbox, LinkedIn, Hootsuite	All treated as annual commitments: cut only at renewal
4	Owner mixes named people and departments (Marketing, Sales)	9 Marketing rows, 3 Sales rows	Action owner shown as 'Marketing lead' / 'Sales lead'; Marcus to name a person
5	Usage snapshot (30 days to 9 Oct) differs from spend period (Jul–Sep)	All seat rows	Unused seats based on the latest snapshot; cuts apply from the next bill
6	LinkedIn: $0 in Jul and Sep, $3,200 in Aug against a $1,600 annual contract	LinkedIn Sales Navigator	Q3/3 run-rate distorted; seat price and cost per user use the contract value (Inputs!B12)
7	Hootsuite: monthly $249 charges on a plan the notes say was prepaid ($2,388, Jan 2026)	Hootsuite	Flagged as billing error; Jan–Jun statements not in export
8	Notion: charges continue after vendor-confirmed cancellation 30 Jun; 0 active users	Notion Plus	Flagged as billing error
9	Klaviyo Sep charge up 31% ($720 → $945)	Klaviyo	Assessed: billed by list size, so plausible tier change; verify list size, not disputed
10	Notes field holds contract amounts as text inside quotes, with commas	LinkedIn, Hootsuite	Amounts moved to Inputs!B12:B13 as numbers
11	Gusto flat at $596 for all 3 months although a designer left 14 Aug	Gusto	Check only; billed headcount to be confirmed by Janelle
12	Adobe: leaver (14 Aug) may still have an assigned seat	Adobe Creative Cloud	Remove access now; seat reduction at 12 Dec renewal

Log & QA

SOP results log and QA checklist

Row	Date	Task	Three-line log	Time
5	17-Oct-26	Sim 5 – Vendor spend review	1) Profiled 25-tool export, logged 12 data issues, built per-tool metrics and classifications. 2) Found $18,601/yr recurring savings (target $12,000) and $2,707 in refunds from 3 billing errors; three-way reconciliation ties. 3) Lesson: read the Notes column first – the billing errors were all in the notes, not the numbers.	90 min box

QA checklist

#	QA check (brief section 7)	Status / evidence
1	Profiled the export and logged data issues before analysing	12 issues logged (Data issues tab)
2	Found every billing error (≥3); one-offs separate from recurring	3 billing errors; one-off $2,707 kept separate
3	Unused seats per tool; annual plans cut only at renewal	Analysis!N; Zoom, Monday, Dropbox, Adobe actions dated before renewal (Renewal calendar)
4	Duplicates identified vs standards, with migration notes	Analysis!Q, T – Google, Zoom, Monday, Dropbox, Slack
5	Nothing on freeze list is cut	Pass – $0 cut on freeze-list tools
6	Temps considered before any M365 seat cut	No M365 cut; shared warehouse account noted (Analysis!S5)
7	Klaviyo Sep increase assessed, not assumed an error	Analysis!S13 – list-size tier; verify, not disputed
8	Total annual savings ≥ $12,000	Pass – $18,601
9	Renewal calendar covers 17 Oct–14 Jan with action date before each	5 renewals in window + Hootsuite (15 Jan) flagged
10	Recommendation one page; disputes ≤5 sentences	Memo print area A1:F27, fit to 1 page; disputes max 4 sentences
11	Savings reconcile by a second method	OK – ties
12	Exported to PDF with label in header	Label set in page header on every tab; PDF export to be done by user (File > Export)
